

Hi everybody I hope everybody is keeping safe and well. Thanks to all the people who have submitted work for me to correct. This week I'm going to give some extra work in Maths, Irish and Science.

3rd class's Maths work sheet is just continuing on the theme from last week Symmetry. All the children have to do is draw 4 images and then draw the line of symmetry for each image. It is important to reinforce here that if an image has a line of Symmetry both sides of the line have to be the exact same otherwise the shape is not symmetrical. This is the same with question 2 and colouring the pattern.

In Irish we are going to be continuing the theme of Caitheamh Aimsire. I have included a screen shot of an exercise I want the children to do. They have to finish the sentences. (Críochnaigh na habairtí) The sentence is Tá mé go maith ag _____ (I am good at _____) You then match the picture with the words on top. Underneath you will see a star at the bottom this is where the children say what hobby they are good at. Tá mise go maith ag _____. You can use the words on the page, or you can use the hobbies from the power point I gave you a few weeks ago to help also.

Finally for Weds and Thursday I have included a screen shot of the children's Small World Geography and Science chapter on The Human Body. On Weds I'd just like the children to read through the chapter. Its quite extensive. You can go through the activities orally with your child there is no need to write out the answers as there is a lot of work to answer these. Then on Thursday I'd like the children to write a report on The Human Body based on what they have read from the chapter under the following headings

- Your Skeleton
- Your Bones and Joints
- Your Teeth and your Tongue
- The importance of a balanced diet

I have included a Report writing frame which can be useful to plan the report before your child writes it.

You can send me the children's completed reports, their Irish, and their Maths worksheet on Friday and I will correct and provide some feedback to you about them. Students can again handwrite the report or if it's easier they can type it up instead. My email is david.doyle@aughacaslans.com. All the work I set including this extra work is completely optional and is at the discretion of you the parent it is not intended to add any extra pressure to you or your child and you are under no obligation to complete it.

Kind Regards

David Doyle
